

How to become a resident of the Special Economic Zone “Alabuga”.

According to the Legislation of Russian Federation about special economic zones a resident of the special industrial economic zone is a commercial organization (except unitary enterprises) registered in compliance with the Legislation of Russian Federation on the territory of municipality in boundaries of which the special economic zone is situated and which concluded with machinery of government of special economic zones an agreement about conduct of industrial activities in order and in terms set by present Federal Law.

A person, intended to get a status of a resident of the special economic zone must apply for concluding an agreement about conduct of industrial activities. The application must contain:

1. The information about intended activities of the applicant according to the type of the special economic zone;
2. The information about the area of the land, which is needed for the estimated activities of the applicant;
3. The information about intended capital investments volume, including the volume of capital investments in the course of year.

As a complement to the application for an agreement about conduct of industrial activities the applicant also presents:

1. The copy of a certificate of state registration;
2. The copy of a certificate of registration in the tax authority;
3. The copy of articles of association;
4. The business plan. A specific form which is approved by the Ministry of Economic Development;
5. The positive conclusion on the presented by the applicant business plan prepared by a bank or another credit organization, satisfying the requirements set by federal body of executive power authorized to realize the functions on regulation in the sphere of creation and functioning of special economic zones.
